

Stockholm, September 26-28, 2018

### Steering Committee:

Chair:

M. Rencz, BME, Hungary

### THERMINIC 2018

General Chair:

A. Poppe, BME, Hungary

Vice General Chair:

J. Janssen, NXP,  
The Netherlands

Programme Chairs:

V. Tsoi, Huawei, Sweden  
J. Liu, Chalmers University,  
Sweden

Publicity Chair:

J. Parry, Mentor Graphics, UK

### Members:

J. Altet, U Politècnica de Catalunya, Spain  
C. Bailey, University of Greenwich, UK  
L. Codecasa, Politecnico di Milano, Italy  
G. Martin, Philips Lighting, NL  
W. Luiten, WLC, NL  
A. Napieralski, TU Lodz, Poland  
D. Schweitzer, Infineon, D  
A. Tay, Singapore University, SGP  
S. Volz, CNRS, France  
B. Wunderle, TU Chemnitz, D  
A. Ziaei, Thales, France

### Sponsored by

The 24<sup>th</sup> THERMINIC Workshop will be held in Stockholm, the capital of Sweden. THERMINIC is the major European Workshop related to thermal issues in electronic components and systems. For academics and industrialists involved in both micro and power electronics this annual event promises to be a very special occasion with a high quality technical programme and exciting social events. We invite delegates to consider submitting abstracts that are related to, but not limited to, the following topics:

#### Thermal Phenomena, Simulation and Experiment

- Thermal management of electronic component and systems
- Classical and modern thermometry and thermography
- Multi-physics simulation and field coupling
- Thermal interface materials
- Thermal modelling and investigation of packages
- Power electronics
- High Temperature electronics
- Solid state lighting / LED's
- Thermal characterisation of micro and nano domains
- CFD modelling and benchmarking
- Advanced thermal materials
- Heat transfer on the nano-scale
- Thermal performance of interconnects

- Temperature mapping
- Electro-thermal interactions
- Nanotechnology applications
- Flow visualisation

#### Electronics Cooling Concepts

- Thermo-electric cooling
- Novel and advanced cooling technologies
- Sub-ambient cooling
- Heat pipe assisted cooling
- 3D integration and cooling concepts
- Cooling concepts: air, liquid, etc.
- Ultra low form factor air cooling
- Novel manufacturing methods

#### Thermo-Mechanical Reliability

- Thermo-mechanical reliability
- Prognostics and health monitoring
- Lifetime modelling and prediction
- Damage and fracture mechanics

Technical Programme will include oral talks, poster presentations, special sessions and invited talks given by prominent speakers.

Authors are invited to submit an abstract describing recent work. Abstracts must detail the objectives of the work presented and demonstrate new results. All abstracts will be double-blind reviewed. Please, refer to the [www.therminic.eu](http://www.therminic.eu) web page for information on past THERMINIC workshops. This site will also guide you to the website of THERMINIC 2018. Accepted contributions will be published in the Workshop proceedings, and archived in IEEE Xplore (provided they comply with specifications). THERMINIC papers can be searched through IEEE, Google scholar and other search engines. Vendors and Book Exhibitors are invited to offer products in the scope of the Workshop. Exhibitor space is available – please contact local committee for further details. Editors are invited to exhibit books.

Deadline abstract submission:

extended to 25<sup>th</sup> April 2018

Notification of acceptance:

14<sup>th</sup> June 2018

Submission of paper for workshop proceedings:

10<sup>th</sup> August 2018

Please check the Workshop website for details on hotel bookings and travel arrangements.

### Venue

Scandic Victoria Tower, Stockholm
